Dear Commissioner Henney,

I have become concerned about the safety of our food. I want to know which foods have been genetically altered so I can chose not to eat those foods.

I understand that a lawsuit was filed in May challenging the F.D.A's policy not to require labels on food that has been altered; I am writing in support of this lawsuit. I want to know about those foods. I hope the F.D.A will change its present policy.

Sincerely,

Martha Greene
