Gentlemen: Re: Food Irradiation

There should be no discussion about the TRUTH of the harmful Irradiation process.

(1) Prominent, Truthful information of Irradiated food products should be clearly and prominently labeled on ALL food products. Any attempt to call it something else to deceive the public is harmful and Anti-American.

(2) If Question No 2 means "should labeling be ommitted on these harmful products that is being marketed (at a certain date)?" - My answer is NO. If the question means should these harm products be discontinued from being marketed by a certain date? - my answer is Yes - the sooner the better. - Just clean up the contaminated merchandise.

98N-1038 C865

Thank you - Sincerely, Phyllis Underwood
