To Whom it May Concern,

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compound pharmacies. This natural approach has made a significant change in my medical life. Do not take this choice away from us. Let us each be allowed to choose our pharmacy & not be dictated by multimillion dollar pharmaceutical houses who want to capture this market.

Sincerely C1582
Phyllis Mangano
