Mr & Mrs Brian Downing
70 Glen Ave
Stockholm, NJ 07460-1133

Dear Dr. Sundlof -

If well tended, well fed, and well exercised, farm animals will grow and flourish - WITHOUT the intervention of potentially harmful (and unnecessary) antibiotics! Please keep our food supply free of these as studies show they may be connected to these resistances today. (It's also nicer for the animals to have better care!)
