Dear Commissioner Henney, 4-25-99

I'm writing to you because I want irradiated food to continue to be labeled and to carry the radura symbol. I realize irradiated food has not been proven to be harmful YET, but I still would like to avoid it whenever possible. Do you have children? Grandchildren? What if someday they find out that irradiated food causes cancer, sterility or a host of other things? Wouldn't you want your children and grandchildren to not be exposed to irradiated foods? I guess you could say the fate of your children and grandchildren is resting in your hands. Please continue to label these foods.

Sincerely,
Sandy G Fuchs
