Westbury, NY 11590-6118

4/24/99

Sirs –

I object & oppose the draft memorandum being proposed by the FDA.

Particularly & specifically the "inordinate amounts" definition which would restrict availability and the right to get medically necessary compounded medications by limiting the # of prescriptions that could be shipped across state lines from specialized compounding pharmacies

Please note my firm objections to this FDA memorandum which unduly LIMITS free choices.

Thank you. P. L. Barhold
