Gentlemen:

We are concerned that large Pharmaceutical Companies are attempting to limit our access to medication prescribed by our medical doctor, by restricting our ability to purchase the safe and desirable medications available only from out-of-state specialized, compounding pharmacies.

Adoption of the memorandum of understanding identified as Docket No. 98-N-1265 will result in the further erosion of this most important freedom of choice. We strongly object to the definition of "inordinate amount" contained in this memorandum and urge that the memorandum be rejected to protect the free choice of consumers rather than the selfish interests of a few large corporations.

Thank you for putting the interests of the citizens of this nation ahead of the few companies which can afford staff of lobbyist.

98N-1265

C 1657

Blessings to you
