FDA-Docket No. 98N-1265

To whom it May Concern,

I oppose the Draft Memorandum being proposed by the F.D.A. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across State lines from specialized compounding pharmacies.

This would be a very bad restriction on medical options for all free people! Please do not be "bullied" by the cyclopic pharmaceutical
