Dear FDA,

Consider this a letter FIRMLY AGAINST the Docket # 98N-1038.

Your job, as I see it, is to PROTECT the food supply from contamination and harmful or even POTENTIALLY HARMFUL developments!

Do your damn jobs and stop selling the public down the quickly poisoning river! How do you people sleep at night with this crap? Stand up and be responsible! NO irradiated, radiated or genetically altered food. It WILL kill us. Is it worth it?
