This is to express my concern for docket NO. 98N-1265.

I take a natural hormone compound from the Women's International Pharmacy in Madison Wi. The medications (hormones) for HRT on the general market have a poor record and are not safe or pleasant to take due to side effects. The natural compound estriadol that I take has no adverse side effects for me.

In its present form, the MOU as well as the compounding section 503A of the modernization Act, severly restricts the rights of physicians & patients to obtain health care products from the provider of their choice. (I pay for my own as my insurance co. will not cover). This urging on the rights of compounding pharmacy. Is this being lobbied by the drug companies?

Thank you
L.L. Guenther
