May 5, 1999

Commissioner Henney,

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. That can leave doctors with no way to treat life-threatening bacterial infections in people. I am a pediatric critical care nurse - keep our children safe & support the petition filed by CSPI.

Thank you,
Marsha A McDaniel
