5-9-99

Dear MS. Henney 277 '99 MAY 17 P2:28

As a member of the center for Science in the public Interest I urge you to Save human lives by banning the use of medically useful antibiotics in ~~the~~ animal feed.

Adding antibiotics to feed in order to promote growth is making bacteria resistant to those antibiotics. This leaves physicians with no way to treat life threatening bacterial infections in humans.

That is why I support the petition filed by CSPI.

I would like to hear from you as to how you feel about this issue.

Thank you,

Beth Lorbee
