SUBJECT: Irradiation

DATE: 5-2-99

To Commissioner Jane E. Henney

1169 '99 MAY 17 P2:01

As a member of the human race and the Center for Science in Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed.

Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can and does leave medical doctors with no way to treat life-threatening bacterial infections in humans.

I am personally allergic to all antibiotics due to being forced to eat animal flesh as a child; so the results are long lasting.

These are some of the reasons I support the petition filed by CSPI.

Sincerely

Alaya Bouché
