4-29-99

Dear Ms Henney —

please use your considerable power to ban medically useful Antibiotics from animal feed!

2152 '99 MAY 13:13

As a nutritional counselor at a local hospital in Portland, OR, I am very concerned about this for all populations concerned, especially the elderly & the young. Please back the petition filed by CSPI (Nut. Action Healthletter) with the Food + Drug Admin., which is asking for this ban! In good conscience I ask you to support our health, our elderly, the American people!

Thank you! Sincerely, C273

Vicki Wren RD
