May 11, 1999

Dear FDA,

0814 '99 MAY 17 A10:16

I am writing with an urgent request - that you amend the MOV no later than May 27, 1999.

This issue is vital to my health & work. I am a singer and my body is my instrument. I have had allergies all my life and a very sensitive system. I am taking a compounded natural hormone cream - only obtainable from Madison WI. It overnight solved a severe medical problem. Also I am taking a much needed calcon product from Weleda - not widely available - as I am a prime candidate for severe osteoporosis - to very good effect.

These products are safe for me & highly effective. Please do not jeopardize my health, by changing the rules now.

Thank you.

Mary Arapoff
