Docket # 98N-1038 Docket No. 98N-1038 | 05-11-99 date

I want: 1) Conspicuous + prominent labeling for all irradiated foods, including products made with irradiated ingredients. 2) Adequate signs on bins for irradiated bulk produce. 3) Labeling for irradiated foods must be permanent, like other types of consumer labeling.

* Codex labeling ~~requirements~~ (international labeling standards) requires that all irradiated foods be labeled as irradiated. The word, "irradiated", must be used — not some euphemism like, "cold pasteurization", or "electronic pasteurization". The radura symbol indicating that ~~for~~ a food has been irradiated must be prominently displayed on that food or food label.

Thank you, Valerie J. Nicholls, U.S. citizen
