Dear Dockets Management
Branch (HFA 305)
Food and Drug Administration
5630 Fisher's Lane, Room 1061
Rockville, Maryland 20852
Docket Number 98N-1038,
Irridation in the production,
processing and handling
of food.

I and my family strongly
desire prominent labeling of
irridated foods with the
word "irridated" or "irridation"

98N-1038

over

C1739

Cora Nell Abraham
2014 Lowella Avenue

in the label as well as the use of the Wadura Symbol.

I and my family would like the ingredients in packaged foods to be labeled also as requested above.

Absence of the word "irridated" or "irridation" would be misleading because irridation destroys vitamins and causes changes in sensory or spoilage qualities that are not obvious or expected by the Consumer.

I and my family would like the Radiation Disclosure Statement to be continued into perpetuity or until irridation is outlawed.

Thank You,
Cora Nell Abraham
