To Whom It May Concern

'99 MAY 17 A9:53

I am writing in regards to the Federal Drug Administration's approval of food irradiation. (Docket #98N-1038)

I request that irradiated food be clearly labeled as such. They should be labeled as irradiated or display the radura symbol.

Terms such as "cold pasteurization" and "electronic pastreurization" are misleading and should not be used.

The absense of any labeling or statement is misleading. Irradiation destroys vitamins.

Very Truly Yours,

Lissa Perfect
