RE: Docket #98N-1265

To the FDA.

MOU needs to be Amended

On its Present form it Severely restricts my rights as a Patient to obtain healthcare products from the provider of my Choice. In my Case I was diagnosed with breast Cancer last June. I can have no estrogen. Therefore, my only relief from Multiple side effects is the Compounded Progesterone cream I mail order. I have tried every Pharmacy in my County (St. Lucie) and Martin County. I Could not find one Pharmacy that Could Compound this Cream for me. If you take my right to order this from where I can get it, my Quality of life Will be Affected.

We have enough Government regulation + intrusion in our lives today. I'm sure this is no safety issue to anyone. Please Amend MOU.
