I want you to know that I strongly oppose the MOU which the FDA proposes regarding restrictions on compounded prescriptions being sent out of state. I use such medications. They are prescribed by my local physician and compounded for my personal needs. They have relieved my hormonal symptoms and allowed me to live a normal life. I cannot use one-size-fits-all medications, and sincerely hope you will understand that it is wrong to force me into that situation. I cannot have my medications compounded locally, and the big drug companies are not interested in individualized dosing. So I ask you, please do not limit or restrict compounded prescriptions being sent out of state. Please allow me to continue living a normal, healthy life.

Most Sincerely Yours,

Gretchen Antitto
