Mr & Mrs Brian Downing
70 Glen Ave
Stockholm, NJ 07460-1133

April 28, 1999

Please Note:

Food-borne pathogens are of major concern today. To increase the likelihood of Salmonella enteritidis in eggs due to forced molting procedures is foolish and unnecessary. Laying hens are perfectly productive if fed well, and given care — which is better for the birds anyway!

Sincerely,

Jennifer Downing
