May 4, 1999

Dear Jane Henney,

5188 '99 MAY 21 P1:38

I do not agree with the routine use of antibiotics on cattle, hogs and chickens.
It has been know for years that our overuse of antibiotics would come back to haunt us. Medically useful antibiotics should be banned from animal feed.
Wouldn't it be terrible if your child or mine were to die because there was no antibiotic to knock out a particular strain of bacteria?!
It's reckless!!

Thanks for listening!

Sincerely,
Paula Barker
