5088 '99 MAY 21 P1:25

FROM:

Mrs. Sherry McClain
PO Box 323
Sparta, WI 54656

Please ban the use of medically useful antibiotics in animal feed. Antibiotic-resistant bacteria is a critical issue of truly epidemic proportions and you, a public servant whose #1 job description is to serve the well-being of those who truly pay your salary, the taxpayer, are in the most unique position to act now.

If for no other reason to act, think of the next generations of your own loved ones; you don't have any extra loved ones to spare. AND NEITHER DO I.

Please don't succumb to the Washington D.C. virus of doing the expedient thing, the politically smart thing or the thing that lines your pockets with tax-free income.
