April 28, 99

Commissioner Henney

5107 '99 MAY 21 P1:26

Please Stop Antibiotics, growth Hormones and pesticides being used in cattle and livestock. I have been a vegetarian for 3 years. I feel and look great. My stomach problems cleared up when I stopped eating - dairy - chicken - cattle - fish. My chances of getting heart Disease is 4 %, while a meat eater is 50 %

thanks very much.
