Dear Commissioner Henney,

The Center for Science in the Public Interest (CSPI) is urging you to support the banning of antibiotic use in animal feed. This is a VERY important cause and will save human lives! Adding antibiotics to animal feed can make bacteria resistant to those antibiotics. This can leave physicians with no way to treat life-threatening bacterial infections in humans. Please, please support the banning of antibiotic use in animal feed. Thank you for this consideration.

Sincerely,

Dora R. Valverde,
Clinical Laboratory Scientist
