Docket# 98N-1038

To whom it may concern

2085 '99 MAY 18 A11:32

This is in regard to the issue of labeling irradiated food. To begin with, as a very health minded consumer, I am very opposed to using irradiation on food at all. Since it is already being used I want you to make sure that any food items, whether in whole form or in part mixed with other foods, are very clearly labeled. The labeling needs to be designed in such a way that all consumers are aware of it's meaning & can make informed choices concerning the food they purchase.

Thank you for your time -

Linda A. Wolff
