To the FDA:

RE: Docket No. 98N-1265

6027 '99 MAY 24 A11:24

As a citizen of U.S.A, who expects freedom of choice in such important matters as my personal health. If citizens are able to choose their spouses, choose their careers, choose their political parties, etc., then they should at least be able to choose their pharmacies!!

Your work in writing the MOU which restricts the rights and responsibilities of physicians and patients as well as pharmacists is not acceptable! The compounding section of 503A of the Modernization Act must be revised to respect our American freedom & responsibility of

98N-1265

C 2580

choice in conducting our private lives in the best way we think is appropriate for our individual welfare. This is not a matter of safety. It raises my suspicions of the FDA being unduly controlled by the big corporations, who head only their bottom line as being important.

I am also contacting my congressional representatives, as well as the President. I will ask their help in defending our American way - individual freedom and responsibility for our own lives. Please do not lose sight of these basics!

Sincerely,

Mr. & Mrs. Carl L. Hanson
