5/12/99

To F.D.A. staff,

Pertaining to docket #98N-1038.

3625 '99 MAY 19 P1:22

Yes I would most strongly urge that labeling be done to this irradiated food.

I don't like buying food in markets that have no price tags on, much less without a label of contents/type, etc, etc. Prominate labels would be even better.

Thank you.
