Dear Mr. Jaffe:

This letter is to let you know I support the petition to ban forced molting of layer hens. (docket 98P-0203/CP)

I recently learned of this cruel and indecent practice: It is banned in England and most other European countries only allow food and water deprivation for 24 hours. In the U.S. I understand food and water is not given to these poor hens for two weeks or more!

As I do not have a computer I rarely write letters but the pictures of these animals being starved were so sickening that I feel I had to let you know where I stand.

Please help to end this inhumane practice.

Thank you.

Sincerely,
June Raskin
