3088 '99 MAY 19 P2:57

To: Food & Drug Administration

I demand prominent labelling of that will indicate the terms "irradiation" or "irradiated" and the use of the irradiated (radular) symbol (the international symbol that indicates radiation treatment). The terms "cold pasturization" or "electronic pasturization" are misleading and should not be used. The absence of a statement would be misleading because irradiation destroys vitamins and causes changes in sensory and spoilage qualities that are not obvious to the consumer.

Sincerely
