To The FDA

As a consumer of hormones through a compounding pharmacy out of state, I am very concerned that my + my doctor's rights may be effected by the MOU + Compounding Section 503A of the Modernization Act.

These compounded hormones have changed my life. My health has improved dramatically as a result of natural compounded hormones. I live in Indiana and as of present there is no compounding pharmacy that provides these hormones in this state. I order them from Madison, Wisc.

Please, Please — do not limit the accessibility of these drugs to people like myself.

Thank you.
