Dear Food and Drug Administration,

Compound drugs have made a huge difference in my life. The public is now aware of their choices. These should not be taken away!! As the intelligence of the public - and the physicians of the country grows, it would be criminal to restrict these options!

The original legislation is not accurately represented in your MOU! Section 503A is poor and unwanted by thousands (across state lines) who wisely and needfully depended on our specialty pharmacies.

Don't ruin something good! Concentrate on those bad drugs you later must recall!

The country wants NATURAL options!!

Yours truly,
Sue Dobby C 2828
