Re: Docket # 98N-1265

To: ~~FDA~~ FDA

I am a consumer of health care services and want to register my concern AND disapproval of the M.O.U. as published by the FDA on 1/21/99.

In its present form the MOU as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of physicians + patients to obtain healthcare products from the provider of their choice. There should be NO restrictions to the delivery of compounded medication prescribed for me, regardless of where I live or travel. THE MOU MUST Be Amended. If this does not happen women who can ONLY use compounded estrogen + progesterone will not be able to use any and thousands of husbands are going to blame You for their miserable existence and you will probably regret not having amended this!

98N-1265

—over—

The FDA is an agency of the US government that "acts" as the watchdog for consumer safety, right? You are also accountable to us, the people, right? Then please, do your job and amend the MOU.

Sincerely,

Sarah K. Vost

New Mexico
