To the FDA:
RE: Docket No. 98N-1265

As a consumer of healthcare services, I am very concerned and disapprove of the Memorandum of Understanding as published by the FDA on January 21, 1999.

The MOU, in its present form, as well as the Compounding Section 503A of the Modernization Act restricts the rights of the physicians and patients to obtain products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical need. As a healthcare consumer, I strongly believe that there should be no restrictions to the delivery of a compounded medication prescribed for me no matter where I travel or live. The MOU must be amended!

The FDA is an agency of the U.S. Government which is supposed to be the "watchdog" for consumer safety. This is <u>not</u> a safety issue. The MOU must be amended.

Sincerely yours, C2850

98N-1265
