To Whom it May Concern 99 MAY 20 A9:56
6844

I oppose the removal of all current labeling requirements for irradiated food. I have a right to know how food I buy is processed.

The FDA is paid by the people to protect our health and keep us informed of what done to both fresh and processed foods before it is consumed.

I expect prominent labeling the use of "irradiation" or "irradiated" and the use of the radura symbol instead of alternative terms such as "cold pasteurization" and "electronic pasteurization"

Please support my right to know and the freedom of information in the U.S.

Sincerely Helen Howard
