Re: Docket No. 98N-1265

Dear People,

I urge you to Amend the MOU, Docket No. 98N-1265. In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of patients and physicians to obtain healthcare products in the form of their choice and from a provider of their choice, and infringes on the rights of compounding pharmacists to serve the public's needs.

I am a woman 71 years old who had a hysterectomy and ovaries removed in my forties. I am also diabetic and have low thyroidism. The use of estrogens caused extreme swelling of my ankles. After years of trying to get my hormones in balance so as not to be plagued by hot flashes I have finally worked with a doctor here and the Women's International Pharmacy until we have found the correct compounds to cure the hot flashes and with no side effects! Also, while gone to Calif. + Oregon for 6 weeks I was able to have my Rx shipped to me! Thank you for your help!

Sincerely,
Bettye K. Goff
