May 23, 1999

To the FDA:
RE: Docket # 98N-0265
3767 '99 MAY 26

I'm writing this letter with deep concern. I am concerned and heartily disapprove of the Memorandum of Understanding as published by the FDA on Jan. 21, 1999

The MOU, and the Compounding section 503A of the Modernization act, severely restricts the rights of patients and physicians to get healthcare products from the providers of their choice. This should not happen. I've used compounding products for years and they have been delivered to me as well-regardless of where I live or travel. The MOU is

C 2930

a travesty of my personal rights. The MOU must be amended!

The FDA is an agency of the U.S. Government that says it is the "Watcher" for consumer safety. This is in NO way a Safety Issue! As an agency of the government, the FDA also has a responsibility to be accountable to the people. Again the MOU must be amended.

Thank you for your help.
