To Whom it May Concern;

This is to inform you, the Food and Drug Administration, of my right to be informed as to whether the food I buy is clearly labeled regarding irradiated treatment. I do not believe that there is enough information assuring the long-term effects and safety of such irradiated foods to warrant removal of labels on such products.

Please consider this a request to reinstate mandatory labeling of all irradiated foods, and protect my freedom to choose the foods I and my family eat. Thank you.

Sincerely,

Mary C. Schnibben
