Dear Sir or Madam:

On the subject of Food Irradiation I ask for and favor the use of the terms "irradiation" or "irradiated" and the radura symbol as apposed to the very misleading terminology as "cold pasteurization" and "electonic pasteurization." The absence of labeling is offensive to me since I know irradiation destroys vitamins and causes changes in sensory and spoilage qualities that are not expected by the consumers. We need to trust our government now more than ever. We as the public have been so offended by elected officials (although not all). Please do not give us reason for any more
