Dear FDA, 5/18/99

I recently found out that you are interested in the input of consumers on the topic of radiation.

It would be inaccurate and misleading if the label didn't include the radura logo and the specific words "radiation" or "irradiated"

Also, the irradiation of meat will reduce the pressure on agribusiness to provide better treatment and living conditions to farmed animals.

Please help these animals from suffering unnecessarily.

Thank you,

Janet Deery
