5/23/99

Gentlemen,

This is a very serious issue for me, as there are few, if any, pharmacies that will or can compound my prescriptions in my area.

My compounded prescriptions do not have deleterious side effects that its precursors did, and my health would be in jeopardy if these were not readily available to me at moderate cost (which is also an issue) as I, like many others like me, survive on a fixed income!

I strongly register my concern and disappointment of the Memorandum

of Understanding, as published by the FDA on January 21, 1999.

The MOU must and should be amended.

A very concerned citizen,

Yours truly,
