5-28-99

To the FDA:

RE: Docket No. 98N-1265

8728 '99 JUN -2 A10:43

I am writing to express my concern & disapproval of the Memorandum of Understanding as published by the FDA Jan. 21, 1999.

After years of problems with standardized "one size fits all" hormone replacement drugs, My Doctor & I heard of Women's International Pharmacy in Sun City Arizona who compounds medications the old-fashioned way. My doctor monitors my estrogen levels & prescribes according to my personal profile and the Pharmacy provides a high quality product that has been just what I need.

In today's pharmacy delivery

98N-1265

C 3018

been prescribed by our doctors regardless of where we live or travel.

As the FDA is an agency of the US Govt. concerned with consumer safety, surely there is ample authority for quality inspection and training requirements that would ensure safe products without denying the consumer. Please amend the MOU - I don't know what I will do if I can no longer call for my prescription from Arizona
