Re: FDA Docket No 98N-1265

May 27, 1999

To F.D.A.

I am a physician Assistant Midwife in practice for more than 16 yrs in California providing quality Health Care to women of all ages.

Many of our patients are managed on compounded hormonal supplements only found in specialized pharmacies. We have had a good working relationship with a pharmacy out of state. Our patients are pleased and we are happy.

Please allow this choice to continue. I am opposing the MOU to state boards of pharmacies all over the country. I disagree with the definition of "incidental amount" contained in the MOU. I am concerned this limitation would compromise choices in prescribing medications that are right for our patients.

Sincerely,
Margie DiFelice PA-C
