Re: Docket No. 98N-1265

To Whom this may concern:

Please amend the MOU - it would severely affect us when it comes to getting certain drugs for my family. We happen to be a family c certain allergies - so the compounding pharmacies would ~~will~~ most likely be hindered in mixing certain compounds that could be safely taken by those of my family & myself - if this service was cut off.

This would be a great injustice to a free country - I just suppose it was you in my place - then what. These compounding pharmacy fill a very necessary & important role - please amend the MOU -

Thank you - I will be contacting my congressman & Senator -

Mrs Farey
