RE: DOCKET # 98N-1265

To Whom It May Concern:

I am deeply disturbed by the Memorandum of Understanding as published by the FDA on 1-21-99. The MOU, as written, as well as the Compounding section 503A of the modernization act will severely Restrict my ability to Receive the compounded medication that my health depends on. Why in the world is this being even considered? I can only think that it is an attempt by the large drug co's to drive the compounding pharmacies out of business. ~~And that is~~ What about all of us who benefit from compounded medication + who, in this is enacted will no longer be able to obtain our prescriptions if they are compounded in another state? I personally, had a life-threatening Reaction to synthetic hormones + am finally back in good health thanks to the availability of natural compounded hormones. Who is this ~~bill~~ legislation intended to benefit? The large pharmaceutical companies, or us, the American consumers? If you have the best interests of the American public in mind, PLEASE AMEND THE MOU. Our health is at stake here, as ~~it~~ is OUR RIGHT TO CHOOSE.

Thank you for your consideration.

98N-1265

Sincerely, Thea Beckett
