RE: Docket No. 98N-1265

To whom it may concern:

I was extremely upset when I learned there was a possibility that the FDA, through a drafted memorandum (MOU) as well as the compounding Section 503A of the Modernization Act, wants to severely restrict the rights of physicians & patients to obtain healthcare products from the provider of their choice, & infringes on the rights of compounding pharmacists to serve the publics medical needs.

Because I have a family history of breast cancer, I do not feel safe taking the regular prescription estrogens. My personal physician has me on natural compounded prescriptions that not only work well, but give me enormous peace of mind.

98N-1265

C3164

Isn't that half the battle of a Wellness program? Please don't take our options away from us.

Sincerely,

Wanda M. Dowdy
