Dear Ms. Henney,

I am writing to urge you to support the petition brought by over 100 scientists and health groups for stronger guidelines ~~which would~~ on animal antibiotic use which would deny approval of antibiotics for animal use if the same drug is used to treat infections in humans. We must cut down of the number of antibiotic resistant bacteria and one effecient way to do so is the cut down on the use antibiotics in animal feed.

Thank You for Your Concern,
Sincerely Yours, Joyce Frohn
