May 26, 1999

Dr Jane Henney, Commissioner
US FDA
Rockville, Md.

Dear Ms. Henney:

I write to urge you & FDA to ban human antibiotics in animal feeds.

I've become increasingly concerned about the development of antibiotic resistance due to overuse of antibiotics in this country. The U.S. lags behind Europe in dealing with this issue.

Thank you for your consideration.

Sincerely,

Edward V. Norton
