5/29/99

Dear Dr. Henney

For a long time now I have been reading of the dangers of the over use of antibiotics and the ability of bacteria to develop resistance to the MAY 35 PM 1:24 too widely reported in respected journals for me to have any doubt as to the truth of these reports.

I am writing to ask you to ban the use of human antibiotics in animal feed as a logical means of reducing this use, in accordance with the 1997 World Health Organization recommendation.

Yours Truly

a. a. White
