Dear Dr. Jane Henney

4243 '99 JUN -4 P1:30

I am writing to urge the FDA to ban human anti-biotics in animal feeds.

Not merely the limiting of new uses, but to curtail the overuse both in human medicine and animal feeds.

We are now confronted with anti-biotic-resistant strains of bacteria - and more emerging - already.

Please act on this forcefully & quickly. I look forward to hearing from you on this subject.

Sincerely,
Rita Solow
